***Final Rejection***

Applicant's arguments filed 12/05/07 have been fully considered but they are not persuasive for reasons detailed below.

The 35 U.S.C. 112 rejections are maintained or modified as follows:

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 13-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Here, Applicant has failed to provide a written description for the "annular frame" (claim 13, line 6). Further, after review of the original disclosure, Examiner has concluded that Applicant cannot add the written description of this limitation without it being new matter.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 13-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Here, Applicant claims an "annular frame" (claim 13, line 6), but teaches a rectangular frame throughout the specification and drawings. This inconsistency between the claims and specification is indefinite. Applicant is also respectfully reminded that all claim limitations must be contained in the drawings.

The prior art rejections are maintained or modified as follows:

These rejections have been withdrawn.

### ***Response to Arguments***

Applicant has failed to adequately respond to the 35 U.S.C. 112, first and second paragraph rejections regarding the "annular frame" language. In response, Applicant argues that the frame is "described in the original disclosure at several locations as annular and having four side elements". This response further confuses the issue as "annular" is normally interpreted as ring-like or circular so it is unclear how "annular" can have four side elements. Further, Examiner is unable to determine support in the original disclosure for this language and Applicant has failed to illustrate the language in question as well. Applicant's assertion that the language already exists in several locations is further undermined by Applicant's attempt to add the "annular" language with the instant amendment. Examiner requests Applicant clarify where in the original

Art Unit: 3653

disclosure "annular" has support and what shape or condition Applicant is attempting to describe with the "annular" language. Consequently, as Applicant has failed to resolve the previously made 35 U.S.C. 112, first and second paragraph rejections, the claims stand rejected.

### ***Specification***

The amendment filed 12/05/07 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "annular frame" (p. 2, 4).

Applicant is required to cancel the new matter in the reply to this Office Action.

Examiner has maintained the prior art rejections, statutory rejections and drawing objections as previously stated and as modified above. Applicant's amendment necessitated any new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
